

**School of Social Work
Faculty and Student Publications
2007 - 2008**

The School of Social Work at Portland State University is pleased to present this listing of recent journal articles, book chapters, and books published by our faculty. For many years our faculty has been in the forefront of community-engaged scholarship, teaching, and service. Our work has aimed to promote understanding and social justice across multiple areas including mental health, child welfare, juvenile justice, disability, leadership development, interpersonal violence, and mentoring.

We hope this report provides a window into the depth and breadth of our activities. It illustrates our commitment to scholarship that contributes both to knowledge and to the improvement of practice and policy. Our faculty members hope the knowledge, perspectives and strategies offered through their publications are used to improve social conditions and promote sustainable living at local, national, and global levels.

A companion report entitled *Faculty Research and Training Projects* provides a listing of our funded research. It also is available on our website (<http://www.ssw.pdx.edu/>).

We hope this publications list is informative and helps to advance the improvements we are seeking to make together.

Sincerely,

A handwritten signature in cursive script that reads "Kristine Nelson".
